- **Front-end Development Tools:** HTML, CSS
- **Developer Tools:** Git, GitHub, VS Code, IntelliJ, Docker
- **Applications:** AutoCAD, Figma, Excel, Word, LaTeX, PowerPoint
- **Language Skills:** Fluent in English, Beginner in Chinese
- **Certifications:** Meta Front-End Developer, Google Cybersecurity

Experience

Software Engineer

March 2026-Present

CMSX

Ithaca, NY

- Contributed to CMSX, Cornell's course management and grading platform used across 140 courses
- Refactored and improved maintainability of the codebase, enhancing readability and long-term scalability

Software Engineer, Software Subteam

March 2026-Present

Cup Robotics

Ithaca, NY

- Built a multi-robot soccer simulation in Python with Pymunk physics, ZMQ messaging, and behavior trees
- Implemented a decision framework for shooting, passing, and repositioning based on robot positions

UI/UX Designer

November 2025-Present

BigRed//Hacks

Ithaca, NY

- Design and prototype BigRed//Hacks websites such as the Hackathon site, home website, etc in Figma
- Assemble marketing material like Instagram posts and physical flyers in Figma

Project Experience

Critter Simulator

September 2025-December 2025

- Collaborated with team of 2 to develop a critter simulator using Java
- Implemented a parser and interpreter to intercept the critter language and carry out actions
- Developed a responsive JavaFX GUI and a client-server system supporting concurrent connections from multiple clients

Little Lemon Website

March 2024-June 2025

- Developed "Little Lemon" a responsive restaurant website using React, JavaScript, HTML, and CSS
- Implemented interactive features and mobile-friendly layouts to mirror a real-world client project

Work Experience

Brooklyn Navy Yard, Brooklyn, NY, IT Support Technician

October 2023-June 2025

- Provided technical support to over 200 users, diagnosing and resolving hardware and software issues
- Monitored and maintained systems to ensure optimal hardware/software performance
